

Introduction

WB Incorporated is an exhibit fabricator providing the corporate and museum communities with outstanding products and services for over twenty-five years.

A Boston company since 1977, WB produces custom designed exhibits, portable and permanent displays, interactives, kiosks, graphics, signage, scenery and provides design services, logistics planning, project management, shipping, storage, field services, onsite installations and other related support services.

We work for (and with) designers, architects, marketers, and management within international corporations, educational institutions, non-profit organizations, and government agencies. Whatever our role, WB's focus and steadfast commitment is to each client's success.

With decades of exhibit-build experience, WB has an extensive range of expertise and "in-house" services to fit each client's unique requirements. WB also has a network of service providers to meet all your exhibiting and event marketing needs.

Our services support the following communication initiatives...

- Exhibits / Tradeshows
- Museum Displays
- Corporate Events
- Annual Meetings
- Marketing Events
- Product Launches
- Facility Tours
- Mobile Exhibiting
- Customer Meetings
- Visitor Centers

WB Incorporated is uniquely positioned to be your full service provider. Our success is due to our diversified product offerings, which makes us a complete resource for your exhibit and event marketing needs.

Please visit our facility. We are dedicated to meeting or exceeding your expectations.

Exhibit Builders

Experienced exhibit craftsmen fabricate each design “on campus” in WB’s shop. Decades of exhibit-build experience combined with a careful devotion to detail guarantee that your manufactured exhibit will meet or exceed your expectations, regardless of the design complexity. A wide technical knowledge of materials and construction techniques unique to exhibitions, and the museum world makes WB a resourceful exhibit house who will provide all the right solutions.

Large Format Digital Graphics

Take full advantage of our in-house graphic design and production department. With our graphics experience and in-house large format printing capabilities, WB can meet your two-dimensional needs with dynamic graphics of any size, shape or color.

Logistic Services

WB provides services for all of your logistical exhibit needs; from storage to shipping, from set-up to cleaning, we handle it for you. WB offers complete shipping services to all of your tradeshow or events, both in the United States and abroad. We track and protect your crates with bar-coding, and can even provide coding for individual exhibit components. WB logistic services provide answers for the “when,” “where” and “how” of your exhibit needs.

Installation Services

WB has been installing exhibits for 25 years. Whether for tradeshow, museums, retail showroom exhibits, conference venues or corporate interiors, our professionalism and knowledge give us the capability to handle any job.

Storage Services

Our on-site storage facility allows WB to both store and preview your exhibit between shows. We have both the space and ease of access to accommodate even the largest of exhibits. The WB warehouse staff invite you to preview your exhibit before it ever hits the show floor. Secure, clean, heated and dry, WB storage services meet and exceed your exhibit storage expectations.

WB is offering you free storage from now through December of 2006, if you choose us to fabricate new exhibits.
